

## New Interactive Exercise Program

Be the first to try the latest innovation in strength and balance

### Exercise your way around the world

JinHome is a downloadable app for laptop and iPad. It combines motion-sensing with captivating outdoor landscapes, giving you the chance to exercise in different regions around the globe.

You'll be skiing the Italian alps, rock climbing in Thailand, and cycling the Tour de France, all while doing science-based strength and balance exercises. For more info, visit:

<https://home.jintronix.com>

### You're invited to participate!

We are offering a limited number of three-month JinHome subscriptions at no cost. You'll have access to all the JinHome exercise games, and you'll be free to use JinHome as much as you'd like. Try it out and tell us what you think!

#### Frequently Asked Questions:

**Q: What will I need to use JinHome?**

You will need a Windows PC, Mac computer, or iPad.

**Q: How much time will it take to use the program?**

We recommend 10 minutes per session, but it's up to you.

**Q: How often should I use JinHome?**

You can use JinHome as much as you'd like.

**Q: Do I have to commit to anything if I participate?**

We might ask you to complete a short questionnaire.

#### How to get started

To participate, send an email to [jinhome@jintronix.com](mailto:jinhome@jintronix.com), and let us know how you found out about us.

We look forward to hearing from you!
